

## ISHS 5<sup>th</sup> Phylloxera Symposium 2010

Hosted by the University of Natural Resources and Applied Life Sciences (BOKU), Vienna (AT), and held in conjunction with the 30th International ESN Symposium.

This 5th International Phylloxera Symposium will be held under the ISHS umbrella to fulfill its mission to maintain a global network of horticultural scientists.

It will be organized in four sessions:

1. Biology, Biodiversity and Ecology of Grape Phylloxera
2. Genomics, Molecular Genetics and Evolution of Grape Phylloxera
3. Pest Management Strategies in Viticulture against soil-borne Pests
4. Rootstock Breeding for Phylloxera & Nematode Resistance

The conference language (presentations, administration etc) will be English.

Venue:

University of Natural Resources and Applied Life Sciences (BOKU),  
Vienna, Austria

Date: 19 - 21 Sept, 2010

Two additional workshops will be held in conjunction to the symposium (both also in English language):

### **Phylloxera Genome Workshop**

chaired by Denis Tagu (INRA Rennes, FR), hosted by Astrid Forneck (BOKU, AT)

### **Phylloxera Quarantine Workshop**

Information exchange on phytosanitary regulations referring to Phylloxera  
chaired by Christoph Hoffmann (JKI Siebeldingen, DE), hosted by A. Forneck

Symposium Organisers:

Prof. Dr. Astrid Forneck

Dipl.-Ing. Dr. Michaela Griesser
